PROFESSIONAL SUMMARY

A passionate and results-oriented React Native Developer with 1.5 years of hands-on experience in full-stack and mobile application development. Skilled in building performant, scalable mobile solutions using React Native, Expo, TypeScript, and Redux. Experienced in RESTful API integration, cross-platform UI/UX implementation, and application performance optimization. Seeking to join an innovative team where clean code, user-centric design, and product excellence are valued.

TECHNICAL SKILLS

Mobile: — React Native (iOS & Android), Expo, Native Modules

Frontend: — React, Redux, Expo, TypeScript, JavaScript (ES6+), HTML, CSS

State Management: — Redux,Context API

Database: — MySql,Psql, Supabase

API : — REST APIs, Axios

Tools & Platforms: — VS Code, Postman, Mockoon, Bruno, Git, GitHub

UI/UX: — Tailwind CSS, NativeWind, Styled Components, Figma

EXPERIENCE

01/2024 – present
Madurai

Full Stack & Mobile Developer, Plattr Tech Studio
- Built multiple mobile applications using **React Native, Expo, TypeScript, Redux**, and REST APIs.
- **Task Management System**: Designed an upgraded version of the Block Management System with advanced **workflow management**, approval stages, and better UX.

- **Wim Cart (E-Commerce App)**: Led the development of a complete e-commerce mobile app with **cart, checkout, product management**, and **user authentication**.
- Collaborated with cross-functional teams and implemented **image uploads**, push notifications, and **real-time updates**.
- Improved app performance and scalability with **modular architecture** and custom hooks.

01/2023 – 12/2023 banglore	– **Developer Intern,** Pratian Technology • Gained practical experience in **UI/UX design**, SQL queries, and **Java basics**. • Supported dashboard creation and optimized internal workflows with Excel-based data analysis.

PROJECTS

Block Management System, (React Native, Expo, TypeScript)
- Designed an approval workflow system with **push notifications** and **real-time updates**.
- Implemented modular architecture for scalability.

Subscription Management Application (Outsourcing Project)
- Built a mobile app for small businesses to manage subscriptions.
- Features include **image upload**, user management, and **REST API** sync.

Wim Cart (React Native, Expo, TypeScript, Redux)
- A complete e-commerce mobile app with **product listings**, **cart**, **order tracking**,**map pin** and **user authentication**.
- Implemented scalable state management and seamless API integration.
- Designed responsive, mobile-friendly UI using NativeWind and Styled Components.

Task Management System (Upgraded BMS)
- Improved version of Block Management with workflow stages like **approval chains**, **status tracking**, and **commenting system**.
- Focused on modular code and reusable components.

Portfolio Projects – See more at here ⧉
- Designed and developed multiple independent mobile projects using React Native.
- Focused on solving real-world problems and UI/UX best practices.

EDUCATION

2019 – 2023 Coimbatore	**Adithya institute of technology,** B.E -Computer Science and Engineering **CGPA: 8.18**
2019 Namakkal	**Nalandas matriculation higher secondary school,** Higher secondary **Percentage :**74%
2017 Thiruchengode	**Government Boys HSS,** SSLC **Percentage:** 87%
